

# Notice of Intention to Make a Price Determination After Conducting a Water and Sewerage Price Determination Investigation (Revised)

**This notice replaces the notice published on 26 June 2021. The timelines in this notice specify a later date for the publication of the Regulator's draft report and draft price determination, and final report and final price determination. The timelines have been extended to allow the Economic Regulator to fully consider TasWater's proposed Price and Service Plan.**

The *Water and Sewerage Industry Act 2008* requires the Tasmanian Economic Regulator to make a price determination that applies to a regulated entity in respect of regulated water and sewerage services.

Before the Economic Regulator makes a price determination, the *Water and Sewerage Industry (Pricing and Related Matters) Regulations 2021* require the Economic Regulator to conduct a price determination investigation. The price investigation commenced on 1 July 2021 and the price determination will be made on or before 6 May 2022.

The price determination will take into account information provided by TasWater in its proposed price and service plan, which relates to a regulatory period of four years commencing on 1 July 2022 and ending on 30 June 2026.

The Economic Regulator will publish a draft report and draft price determination by 7 February 2022.

Written submissions (preferably by email) on the Regulator's draft report and draft price determination can be made to the Economic Regulator during a consultation period that ends on 11 March 2022.

TasWater's proposed price and service plan is available on the Economic Regulator's website: [www.economicregulator.tas.gov.au](http://www.economicregulator.tas.gov.au). The Economic Regulator's draft report and draft price determination will also be available on the Economic Regulator's website, together with the draft report from the Regulator's consultants, who are reviewing TasWater's operating and capital expenditure.
