

# Notice of Intention to Conduct a Price-Regulated Retail Service (Standing Offer) Pricing Investigation

The 2022 Aurora Energy Pty Ltd Standing Offer Price Determination expires on 30 June 2025 and the *Electricity Supply Industry (Pricing and Related Matters) Regulations 2023* require the Tasmanian Economic Regulator to conduct a pricing investigation before making a new determination.

When making a standing offer pricing determination, the *Electricity Supply Industry Act 1995* requires the Regulator to either set the maximum prices that may be charged by Aurora Energy as the regulated offer retailer under standard retail contracts in respect of small customers; or a method of determining the maximum prices that Aurora Energy may charge under standard retail contracts in respect of small customers.

The objective of the pricing investigation is to gather information to assist the Regulator in making the determination.

The Regulator will publish a draft report and draft determination on the Regulator's website (<https://www.economicregulator.tas.gov.au/electricity/pricing/retail>) by 21 February 2025.

Written submissions on the draft determination and on the issues discussed in the draft report can be made to the Regulator during a consultation period ending on 21 March 2025.

The investigation final report will be released, and the determination will be made, in May 2025. Once made, the determination will apply from 1 July 2025.
