I have contacted the premier on many occasions regarding the sale and valuation of perpetual taxi plates.

I have been fobbed off to Mr Abetz, who has no regard for the 10's of thousands of dollars lost my many owners.

How would you feel if the government started giving away free or cheap housing in your area? With the outcome being a loss in valuation of your house by about 70%

You want to release and sell more at \$46k?

I can't sell mine privately for \$30k.

Its a joke
