

Electricity Supply Industry Act 1995

Notice of Amendment No. 1

ELECTRICITY GENERATION LICENCE

issued to

Alinta Energy (Tamar Valley) PTY LTD

(ABN 29 123 391 613)

on 12 July 2007

3 July 2008

1. BACKGROUND

Pursuant to section 28 of the *Electricity Supply Industry Act 1995* (ESI Act), the Regulator has the authority to amend the terms or conditions of an electricity entity's licence with the electricity entity's agreement or after giving the electricity entity reasonable notice of the proposed amendment and allowing a reasonable opportunity for it to respond.

On 30 June 2008, the Regulator received a request from Alinta Energy (Tamar Valley) Pty Ltd (Alinta Energy) to amend its licence to include two additional gas turbine generating units.

The Regulator agreed to the request for amendment.

2. ESI ACT

The Regulator is satisfied that the amendments to Alinta Energy's Generation Licence do not alter the position of Alinta Energy as a suitable person to hold a generation licence, pursuant to section 19 of the ESI Act.

The Regulator is also satisfied that the amendments to Alinta Energy's Generation Licence are not inconsistent with the objectives of the ESI Act or the objectives of the Regulator in exercising his powers and functions under the ESI Act.

3. AMENDMENT

In exercise of the power conferred by section 28 of the ESI Act and at the request of Alinta Energy, the Regulator amends the Generation Licence issued to Alinta Energy on 12 July 2007, by adding the following two gas turbine generating units to the Schedule 1 of the licence:

1. Unit 104 - One Rolls Royce Trent 60 WLD Dual fuel gas turbine generator; and
2. Unit 201 - One Mitsubishi M701DA Gas turbine generator and one Mitshbushi Steam Turbine generator in a combined cycle configuration (NB the two units cannot run independently).

The amendment takes effect on 3 July 2008.
