## BACKGROUND

The *Electricity Supply Industry Act 1995* has previously been amended in light of the implementation of the National Electricity Law.

It is therefore necessary to amend the relevant Tasmanian electricity licences to align with the new terminology in the Act and the National Electricity Law.

## NOTICE OF PROPOSED AMENDMENT

In accordance with section 28 of the *Electricity Supply Industry Act 1995*, the Regulator may amend the terms and conditions of an electricity entity's licence upon giving reasonable notice of the proposed amendment and allowing the licensee a reasonable opportunity to make representations in respect of the proposed amendments.

The Regulator proposes to amend the following licences to take effect from 1 January 2008:

### Generation Licence:

- Hydro Tasmania (Hydro-Electric Corporation) Notice of Amendment No.2
- Woolnorth Bluff Point Wind Farm Pty Ltd Notice of Amendment No.5

### Distribution Licence:

- Aurora Energy Pty Ltd Notice of Amendment No.3

### Retail Licence:

- Aurora Energy Pty Ltd Notice of Amendment No.5

The amendments, where applicable, to these licences are:

- 'National Electricity Code' is replaced with 'National Electricity Law' or 'National Electricity Rules' where appropriate; and
- 'Jurisdictional Co-ordinator' is replaced with 'Jurisdictional System Security Co-ordinator'

The definition of 'Code' in the licence has also been deleted as it is defined in the ESI Act and the licensee's obligation to comply with applicable guidelines is made clear in the licence.
