Dear Mr Appleyard

**Gas Codes Review Consultation Paper**

Aurora Energy participated in the audit of Code compliance conducted by Nine Lives Systems Pty Ltd during May and June 2007, and discussions regarding the effectiveness of the Codes in facilitating dealings between entities and customers in a competitive market.

Aurora representatives also participated along with other retailers, distributors, and interested parties in the subsequent 'Gas Codes Review', resulting in a number of recommendations for changes to the Codes being made to the Director of Gas. Aurora was very supportive of this process and notes that the majority of recommendations from the review have been accepted and form the basis of the above Consultation Paper.

Given our participation to date and general agreement with the findings of the review and the subsequent Consultation Paper, there is no need for Aurora to offer further submissions.

Yours sincerely

Neville Horder  
Compliance Manager - Retail
