Hobart TAS 7001

Dear Sir/Madam,

The Break O'Day Council is writing to express its support for TasWater's Prices and Services Plan 5 (PSP5). As a stakeholder in Tasmania's water and sewerage services, Council recognises the importance of a sustainable, transparent, and customer-focused approach to the management and delivery of these essential services.

TasWater's PSP5 outlines a comprehensive vision for the next regulatory period, emphasising affordability, reliability, and continued investment in critical infrastructure. The proposed plan strikes a balance between maintaining fair water prices for Tasmanian households and businesses, while also ensuring necessary upgrades and maintenance are undertaken to safeguard service quality and environmental outcomes.

It is requested that the Economic Regulator support a pricing framework that facilitates long-term planning and investment. Doing so will help TasWater deliver safe and reliable water and sewerage services, meet regulatory obligations, and contribute to Tasmania's social and economic prosperity.

In summary, Council endorses TasWater's Prices and Services Plan 5 and encourages the Economic Regulator to approve the plan in its current form. I appreciate your consideration of this submission and look forward to positive outcomes for all Tasmanians.

Yours sincerely,

Mick Tucker
