

*Electricity Supply Industry Act 1995*

## **Notice of Amendment No 1**

### **ELECTRICITY GENERATION LICENCE**

**issued to**

**Musselroe Wind Farm Pty Ltd**

ACN 113 161 247

on 2 August 2007

**16 October 2009**

## BACKGROUND

Pursuant to section 28 of the *Electricity Supply Industry Act 1995* (ESI Act), the Regulator has the authority to amend the terms or conditions of an electricity entity's licence with the electricity entity's agreement or after giving the electricity entity reasonable notice of the proposed amendment and allowing a reasonable opportunity for it to respond.

Musselroe Wind Farm Pty Ltd is the holder of a generation licence which authorises it to operate up to 80 wind turbine generators with a total capacity of up to 140 MW.

On 8 October 2009, the Regulator received a request from the representative of Musselroe Wind Farm to amend its licence to increase the total generation capacity and contribution to the power system to 168 MW.

The Regulator agreed to the amendment.

## ELECTRICITY SUPPLY INDUSTRY ACT 1995

The Regulator is satisfied that the amendment to Musselroe Wind Farm's generation licence:

- does not alter the position of Musselroe Wind Farm as a suitable person to hold a generation licence pursuant to section 19 of the ESI Act; and
- is not inconsistent with the objectives of the ESI Act or the objectives of the Regulator in exercising his powers and functions under the ESI Act.

## AMENDMENT

On 16 October 2009, in exercise of the power conferred by section 28 of the ESI Act, the Regulator amended Schedule 1 (Description of Generating Facility) of Musselroe Wind Farm's Generation Licence by increasing the total generation capacity and contribution to the power system from 140 MW to 168 MW.

A copy of the licence is available on the Regulator's website at [www.economicregulator.tas.gov.au](http://www.economicregulator.tas.gov.au).
