

GAS ACT 2000

NOTICE OF VARIATION No. 10

of the

DISTRIBUTION LICENCE (CONSTRUCTION)

granted on

13 MAY 2003

to

POWERCO TASMANIA PTY LTD

ACN 104 499 569

Background

In accordance with section 34(2)(a) of the *Gas Act 2000*, Powerco Tasmania Pty Ltd (Powerco), by letter dated 2 June 2005, applied to the Director of Gas for a variation of its gas distribution network construction licence issued on 13 May 2003 (licence).

The application sought a minor variation to the licence to allow additional mains to be constructed at Wynyard to facilitate the connection of a commercial installation.

Clause 6.3 of the licence provides that if the Director of Gas does not, within 5 business days of receipt of the variation details, advise Powerco, in writing, to the contrary, then the licence will be deemed to be amended by agreement so as to incorporate the variation details.

The variation is considered minor in nature and no notice to the contrary was provided to Powerco.

Decision

In accordance with clause 6.3 of the licence, the licence is deemed to be amended to include the variation.

Schedule 3 of the licence for the construction of a gas distribution network granted to Powerco Tasmania Pty Ltd on 13 May 2003 and amended on 8 July 2003, 3 March 2004, 21 July 2004, 13 August 2004, 16 September 2004, 13 October 2004, 1 November 2004, 7 March 2005, and 9 June 2005 is varied by substituting:

1. the page headed "Schedule 3 – Authorised Distribution Systems" and the following page, attached to this Notice, for the page headed "Schedule 3 – Authorised Distribution Systems" and the following page, attached to the licence; and
2. Plan Number 9 (Amended 2) attached to this Notice, for Plan Number 9 (Amended) attached to the licence.

.....
Andrew John Reeves

Director of Gas

7 July 2005

Schedule 3 – Authorised Distribution Systems²

This licence authorises the construction of gas distribution systems in the locations specified in the table below as follows:

1. (a) steel mains with a maximum allowable operating pressure from 1050 kPa up to 5100 kPa; and
(b) steel or polyethylene mains with a maximum allowable operating pressure from 500 kPa up to 1050 kPa,
the proposed routes of which are shown in blue or black on the Plan the number of which appears, or on the Plans the numbers of which appear, in the table against the name of the location, together with associated fittings and equipment, PROVIDED THAT such mains, fittings and equipment may be constructed within a corridor 1 kilometre wide centred on the proposed route in each location; and
2. steel and polyethylene mains and service pipes with a maximum allowable operating pressure of up to 500 kPa, together with associated fittings and equipment, within the area delineated by coloured boundary lines on the Plan the number of which appears, or on the Plans the numbers of which appear, in the table against the name of the location.

The Plans are attached to this licence.

² Schedule 3 amended:

8 July 2003 (Notice of Variation No. 1)

28 January 2004 (consolidation of a number of minor route variations involving substitution of plans and network diagrams but no alteration to the wording of the licence - no Notice of Variation issued)

3 March 2004 (Notice of Variation No. 2)

21 July 2004 (Notice of Variation No. 3)

13 August 2004 (Notice of Variation No. 4)

16 September 2004 (Notice of Variation No. 5)

13 October 2004 (Notice of Variation No. 6)

1 November 2004 (Notice of Variation No. 7)

7 March 2005 (Notice of Variation No. 8)

9 June 2005 (Notice of Variation No. 9)

7 July 2005 (Notice of Variation No. 10).

Location	Plan Number
