

Dear Mr. Bounds,

Re: TasWater- Economic Regulator's Suggested Price Changes.

We were very pleased to hear that the Economic Regulator has recommended to TasWater that customers who are paying above their respective target fixed tariffs as at June 2015 should move to their respective target fixed tariffs as from 1 July 2015.

In Glenorchy Municipality we have been paying well above the target price for our water since July 2009, and much more than some neighbouring suburbs. We have therefore contributed more than our reasonable share towards the State's water reforms. It will be some relief if our water bills come down to the fixed target tariff this July.

**Yours sincerely,**

*B. Powell*
