Dear Mr Bounds

TasWater's submission - Proposed Amendments to the Regulatory Reporting Guideline

Thank you for the opportunity to comment on the proposed amendments to the Regulatory Reporting Guideline.

TasWater wishes to make the following brief comments:

- In relation to Section 2.4 Frequency of reporting, TasWater notes the proposed amendments that would enable more frequent reviews to be conducted in relation to higher risk aspects of a regulated entity's activities. It may also be prudent to limit any such reviews to not more than once every 12 months.
- In relation to Section 4.2 Assessing Risk, we note that TasWater's own risk assessment tools are substantially similar (but not identical) to the consequence and likelihood tables contained in the draft amended Guidelines. If you would like more information about those tools, we would be happy to discuss.

If you require further information which would assist in your consideration, please do not hesitate to contact Alison Turner on 6237 8392 or email alison.turner@taswater.com.au.

Kind regards

Michael Brewster
